PHOTOGRAPHS

The school is required by law to seek parental permission prior to creating images of children who attend the school. This applies to photographs. The school holds photographic records in order to be able to identify a child and on occasion photographs are taken at sports days, special events and sometimes for school publications. If you specifically object to any of the above, please notify the school in writing.

I/We **DO** give consent for photographs to be taken and displayed of my/our child at Collingbourne Primary School.

If you do not give your consent, please notify me in writing and on such occasions our child will be asked to remain in school and undertake supervised school studies.
